

water efficiency is a way of life

Beverly Hills Water Tracker Announcement

Outdoor Watering Guidelines

On May 16, 2023, Beverly Hills City Council supported maintaining the previously adopted drought measures. This is a reminder that water efficiency measures are in place. These measures include:

- Two watering days a week during the summer months.
- No watering between 9am-6pm.
- Don't irrigate after measurable rainfall.
- Don't allow excessive water runoff due to sprinkler overspray or malfunctions.
- Repair leaks immediately.

Getting Started with a California Native Plant Garden

Californians are known for many things — Hollywood, Silicon Valley, farm-to-table cuisine, and surfing are all uniquely Californian. Now, let's add saving water to that impressive list. One of the easiest ways to become a water-wise champion is gardening with California native plants! With vibrant flowers and a variety of textures, shapes, and sizes, adding California native plants to your landscape is easy, makes your landscape beautiful, and saves you money!

More information can be found online at <https://saveourwater.com/en/News-and-Events/Latest-News/CA-Native-Plant-Guide>

Toilet Leaks

Old or worn-out toilet flappers (e.g., valve seal) can cause leaks. This simple rubber device holds water in the tank and then releases water into the bowl when the toilet is flushed. Because the rubber can wear out, the flapper should be checked periodically and replaced at least every five years to ensure a good seal and avoid leaks. An old or worn flapper can cause your toilet to flush on its own or silently leak thousands of gallons a year. Replacing a flapper is a quick and easy fix that will save water and money.

TOO TOXIC TO TRASH

FREE Household Hazardous and Electronic Waste Drive-Thru Collection Event

Saturday, September 30 • 9 A.M. - 3 P.M.
Beverly Hills City Streets
West 3rd Street between Foothill Road & Civic Center Drive
Beverly Hills, CA 90210

Brought to you by Los Angeles County and presented by Los Angeles County Public Works and Los Angeles County Sanitation Districts, in cooperation with the cities of Beverly Hills, Culver City, Los Angeles, and West Hollywood.

800-238-0173 • LACSD.org/HHW • CleanLA.com

There is a limit of 15 gallons or 125 pounds of hazardous waste per trip. [Click here](#) for more information from the LA County Department of Public Works regarding HHW and E-waste Collection Events.

For a complete listing of what you can and cannot bring or information on events, contact: (888) CLEAN-LA or visit 88CleanLA.com, or (800) 238-0172 or visit www.lacsd.org

Toxic chemicals typically found in a household:

- Oven cleaner
- Pool supplies
- Used motor oil
- Oil paint products

Do not place any of these unused items or other toxic chemicals in any container. Only empty toxic containers (with lids removed) are to be placed with your trash.
